

GGA- Science Year 2 Summer Term 2 Living Things and their Habitats

Vocabulary

Food chain	Carnivore
Habitat	Omnivore
Mini beast	Herbivore
Depend	Vegetation
Vertebrate	Micro habitat

Skills that I am going to learn.

Scientific Enquiry Skills

Asks simple questions and recognises that they can be answered in different ways.

E.g ask simple questions to gain answers and knowledge about the animals

Identifies and classifies.

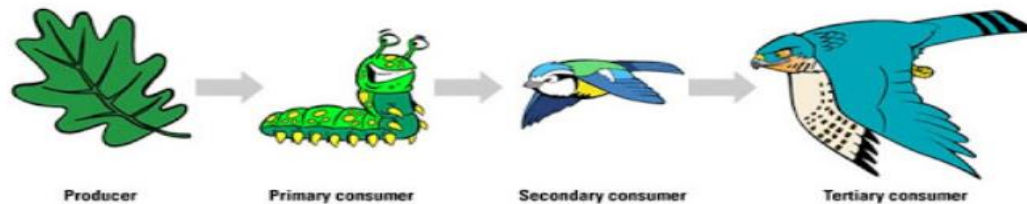

E.g names animals and habitats and sorts in to groups

Uses their observations and ideas to suggest answers to questions.

E.g answer questions about animals, habitats and life cycles

Gathers and records data to help in answering questions.

E.g use Venn diagrams to gather data and record in simple tables

Why are we learning this?

To know where animals live and why

Why is it important?

So we understand what animals need to live and how the life cycle happens.
