Dear Goldington Green School,

Long time! How have you been? I hope and pray that you're all fine. Back to me here am fine and fairing through. I am really happy to hear from you. Thank you so much for the wonderful letters. You guys are just so sweet and I love you all and I pray that the Lord guides you through as you walk this wonderful journey of life.

Y'all are joining grade five...wow, this sounds amazing, am proud of each one of you. I was also once in grade four and five but all I know is that it's a bit challenging but it's one of the best experiences in life.

Hi Isabelle, Somehow similar name to mine! Thank you so much for the wonderful letter sent. Well, you wanted to ask me about basketball...well, I would like to play basketball professionally but unfortunately in Uganda, something like that never exists because it's really hard to find a professional basketballer in Uganda so basketball is just a part-time thing. Therefore I'll be doing it besides my accounting. And then every year is termed as a season in Uganda basketball as long as games commence. So answering your question, this season's basketball has been my best season because it has exposed me to bigger teams, and by next week I'll be signing a contract with some team which I hope to play for next season, truth be told, I can't wait for next year.  
I love you so much

Hi Maureen, Fashion designer...this sounds amazing. Now I understand why you are so eager about the blazer and tie as being part of your new school uniform. Yes, you are right to be happy about it because it looks smart. I used to put on a blazer and tie in high school but it made me feel like a boss, hahaha. I like fashion too because it makes me feel cool though I only design myself, my dress code, and my hair. It's such an interesting thing so keep it up and you'll see yourself thrive.

Hania Asad, I like your energies and your aim for the start...that sounds amazing. It's okay not to be sure of what you want to become in the future but just give yourself time to understand what your passion is. Follow your heart and don't let peer pressure lead you.

Hi Elizabeth Wright, We share the Elizabeth name too though I rarely use mine because most people prefer calling me Isabella. Well, about my age, am 23 years old...hahaha, am very old? Right?  
Thanks a lot though for the wonderful letter.

All in all, I can't mention all of you here but all I can say is thank you so much. Thank you for your sincere love and giving. Your letters make me cry tears of joy because you are such a wonderful group of people. Young as you are, you inspire me. I Love you so much. Please send my regards and greetings to your teachers, especially your new coconut class teacher. And to Mrs. Tracy Wilson, I love you so much.

With lots of love from; Isabella Namugabo
